Introducing the **"Rival"** by Beavertail Skiffs™, a masterclass in shallow water angling designed for precision and performance. This 16' 10" skiff, with a 70" beam, is built on a reliable hull that guarantees stability and agility in narrow creeks and expansive saltwater flats alike. Engineered with a tiller setup, the **Rival** offers unmatched control, allowing anglers to navigate previously inaccessible areas with ease.

The skiff's exceptional fit and finish are evident in every detail, making it the obvious choice for serious anglers who value quality and durability. Ideal for both spin and fly fishing, the **Rival** stands out as a superior craft in its class, providing a seamless blend of functionality and sleek design for the ultimate fishing experience. Whether targeting secluded spots or challenging shallow waters, the **Rival** is your partner in pursuit of the perfect catch.
